JUSTICE JOHN'S COURT.

A Miscellaneous Docket And a Cool Day

at the Sanctum. The cool weather brought out a goodly aulience at the sanctum yesterday, and big judicial nature bubbles over with a series of witticisms not to be equaled in point of individuality by Officer Redford's few petty thefts, one or two disorderly fracases on the public thoroughfares, a case of the leader of a prayer-meeting being chastised by one of the brethren, several Bacchanalian carousals, and a number of uniumportant departures from the paths of righteousiess, and the cur-tain rolled down upon a jack pot opened by the Sergeant on a pair of "blonde women," to use an expert's phraseology.

The orchestra struck up on the chorus of that well-known, but now somewhat prehistoric air, "Beware of the Franklin-street Copper," and W. S. Jarvis, who didn't observe the commandment, "Honor thy father and thy mother, that the days of thy youth may be long," came in for a context watch. He paraginated in disobevious comic snatch. doubt, let us look and see who it is that is doing it. It has come to my knowledge that three of our daily papers sent in their bills to the Committee on Accounts and Printing for doing the same amount of printing. One was \$74, the other was for \$71, while another was for \$127. The committee has for its clerk a young man who is a printer by trade and an honest man. He called the attention of the committee to the bills, who approved two of the bills and sent the other back disapproved, when it was medified 39 per cent, and then paid. This young clerk was working for one of the papers at the time the said bills were presented to the committee, but in a short while one of the said papers had to reduce its force and this young man was put off.

"Now, gentlemen, you can draw your own conclusions. Therefore be it "Resolved, That this information be reported to the Committee on Retrence ment and Reform to be investigated.

Mr. Grooms explained that the excessive bill had been presented by the State for the publication of an advertisement ordered by the City Collector. He added that the Committee on Accounts and Printing had invited Captain Cunningham to appear before them at the next meeting, and he therefore asked that the paper of Mr. Epps be laid on the table until after that meeting. NEW YORK, July 11.-The feeling of apprehension and distrust which has prevailed in stock circles for some time was still more pronounced to-day, and the bears met with unusual success in the bears met with unusual success in beating down prices. Sales for London account and the failures at that centre combined with the embarrassment of Western houses, led to great depression in the stack market. The seiling move-ment gained momentum as the day drew to a close, when it was currently reportment gained momentum as the day drew to a close, when it was currently report-ed that a leading capitalist with strong Vanderbilt affiliations, had been forced to liquidate. The bears, in order to give color to the rumor, which was emphat-ically denied, made the Vanderbilt stocks ically denied, made the Vanderbilt stocks a special target, and put down both Northwest and Lake Shore 4% to 5½ per cent. The weakness extended to the entire list, and Chicago Gas broke 7%, Manhattan 4%, St. Paul 4%, and other active stocks anywhere from 1 to 3½ per cent. There was a heavy pressure to sell, and considerable excitement prevailed in consequence of the sensational rumors put aflost. Late in the afternoon there was a raily of ½ to 2 per cent, on purchases to cover shorts, but the advance did not hold, and financial quotations were about the lowest touched. There was some buying, however, by commission houses at the lower range on account of the some of the banks reporting a return flow of the currency from the interior, and steriling exchange having declined sufficiently to admit of the importation of \$335,600 gold by L. The Courier-Journal of Monday morning. July 10, 1893, reports the Louisville (Ky.) tobacco market for the past week as follows:

Business on the breaks was dult during the past week. One of the regular sale days was lost on account of a holiday, and the offerings on other days were not heavy. The total sales for the week were 1,276 hogsheads, against 2,287 for the week before. The market opened Wednesday—the first day of selling—strong at the prices of the week before. strong at the prices of the week before. The bidding was spirited on the lower grades of both burley and dark tobaccos, though much of the burley suffered in price from being out of condition. The selling was good on Thursday also, but dull on Friday. The quotations for the week are unchanged.

The general condition of the market eferred to last week still obtain. A title buying during the week by one of manufacturers did not mark the return of that factor to the market in sufficient force to be felt. The higher grade burleys sold as usual at low prices. There is some expectation that the improving monetary conditions may have a stiffening effect on the market, bringing out both manufacturers and specula-tors, but no one can say when the imovement will have progressed far igh to bring this about.

CHICAGO.

CHITAGO, ILL., July 11.—A queer somersault was turned by the wheat mar-ket to-day. The latest whiff of the financial blizzard seemed to be the reafinancial blizzard seemed to be the rea-son. There was a fall of 1%c. a bushel in the price of the cercal right in the face of a government report indicating a smaller crop of wheat than in any year since 1885. Compared with last night, wheat at the close had lost 1%c. The corn trade followed wheat. It was easier to follow on the breaks than easier to follow on the breaks than

bulges, because the news in corn was mostly bearish. Corn at the close showed

mostly bearish. Corn at the close showed a decline of %Glc.

The features in oats was the strength and advance of %c. in July and the weakness and decline of %c. from yesterday's close in September, the close showing a net advance for the day of %c. in July and %c. decline in September.

The advance of yesterday in provisions was wiped out. The weakness in grain markets and some sellins by packers and raiding by brokers did the business. Lard and ribs declined heavily. The former lost 30c. of its September price and 35c. of its value for October. September ribs are 22%c. lower. Little attention was given to pork. It was marked down 10c. from yesterday's figures.

MR. J. STEWART BARNEY'S SUCCESS. His Designs Accepted for Four Buildings for Grace Church, New York.

On Palm Sunday last year Dr. William R. Huntington, rector of Grace church New York city, made an appeal to his congregation for funds to build a hospital back of the present Grace Chapel, on Fourteenth street, New York city, and three members of the congregation responded to the appeal and bound themselves to furnish the necessary money to carry out the proposed charity. Plans submitted by J. Stewart Barney were accepted, and the building was about to be commenced, when the members of the vestry decided to wait a little longer and nake a more extensive and complete charity than any that had yet been at-

charity than any that had yet been attempted in New York.

The architect who designd the buildings, Mr. J. Stewart Barney, is a Southerner, twenty-six years old. He came to New York six years ago from Riemmond, Va., and entered Columbia College, where he took the architectural course, afterwards serving with George B. Post for three years. About a year ago he opened an office for himself, and has been signally successful. He is a member of the nally successful. He is a member of the Union Club and the Southern Society. The award to Mr. Barney of the architectural work for the entire Grace Church colony, given in spite of the competition of such architects as Renwick and Gibson, is an evidence of Mr. Bar-ney's great atility, especially when it is considered that one of the stipulations of the competition was that the committee reserved the right to discriminate among the competitors by accepting the chapel another, or the clergy house of a third, or two of each.

Mr. Barney's plans for all four of the buildings were unanimously accepted by the building committee appointed by Grace church. Mr. Barney's associate is Mr. Henry Otis Chapman, and the firm name is Earney & Chapman. Mr. Chapman is a young man also. He comes from the rorthern part of New York State, and is a graduate of Cornell Architectural School.

The cost of the building will be about \$300,000, all of which has already been subscribed.

*TESTED FOR SIXTY YEARS.* The Committee on Shockoe Creek held a session in the Council Chamber last evening at the request of the Committee on Grounds and Buildings to consider the advisability of transferring the amount advisability of transferring the amount standing to the former's credit to the latter, to be expended for the improvement of the public parks. Chairman Bowden and Messrs. Epps, Grooms and Mitchell were present. Virginia Fire & Marine

Mitchell were present.
On motion of Mr. Grooms, the committee decided to recommend to the City Council the adoption of a resolution in-structing the City Auditor to transfer the sum of \$8,500 from the fund to the credit of improvement of Shockoe creek to the credit of the Committee on Grounds and Buildings, to be expended by the said committee on the public parks of the city.

India's Real Motive, Again.

LONDON, July 11.-In response to in quiries on the subject made in the House of Commons to-day, Mr. G. E. Russell, Parliamentary Secretary of the Indian Office, stated that the object of the recent silver legislation of the Government of India was not to fix the value of the rupe at sixpence, or any other amount, but to prevent a future fall in the price of rupees. He added that there was not yet a fixed ratio of value between the rupes
